The New Zealand Certificate in Study and Career Preparation (Level 4) (Health Science) is a fascinating introduction to human biological sciences and natural therapies.

Graduates of this certificate will develop knowledge of human biological sciences and will be able to investigate career pathways within a natural health therapies or health science environment.

Our NZQA-approved certificate is offered entirely online. You can complete your study anywhere, anytime.

The duration of the course is 19-weeks if full time study undertaken. A part time, one year alternative is available.

Our graduates can move in to our Diploma courses including the Diploma in Health Science (Level 5).

Our experienced tutors are on hand to assist you through this programme.

## How is this course delivered?

This certificate is offered entirely online.

The Learning Management System contains a number of learning tools, such as videos, quizzes and forums, through which you can explore the subject matter with your classmates.

All assessments are open book.

The course is self-directed, but each assessment has a due date to keep you on track.

## Why choose the Naturopathic College of New Zealand

NCNZ has a proud history of delivering education by distance learning since 1979, and is the country's leading provider of online and blended learning in the field of natural therapies.

We have a professional and dedicated educational team ready to assist you on your journey, with many of them working simultaneously in their own practice.

## How to enrol
